

# WEEDER'S DIGEST

CRAIGHEAD COUNTY MASTER GARDENERS

March 2019 Volume 13, Issue 3

**Our Meeting will be March 7th**

**Greeting at 6:00pm**

**Meeting begins at 6:30pm**

**Speaking will be Nan Snider, a native of Monette, AR. Author of many articles for the Town Crier.**

Spring is almost here, and with the warmer weather comes the

desire to be out in our yards and other gardens enjoying the fresh air and preparing for the delightful blooms soon to come. We, as gardeners, are prone to over-do our bodies in these preparations. Listen to your bodies, drink your fluids and take notice of how you work your body. This month is loaded with opportunities to attend seminars and plant sales. I look so forward to this time of the year, I'm almost as bad as a child at Christmas! Bringing home our little goodies and placing them in their new homes is so fulfilling to a gardener. If any of our members would like to attend an upcoming event but needs a ride or company please contact Donna Bandy or myself and we'll get you hooked up!

## **Five Tips for Getting Ready for Spring**

**#1 Clean up-** You want to first start by clearing all of your garden beds and lawn of broken branches, leaves, and other debris that have collected. It's important to start these chores quickly, as your spring bulbs and plants should be popping out of the ground any day now. The sooner you clean out the beds, the less chance you have of stepping on the growing plants and damaging them.

**#2 Prep Garden Tools-** Clean off the tools with soap and water, and use mineral spirits on wood handles. The mineral spirits will help prevent the wood from splintering. This is also a good time to sharpen any tools that need it.

**#3 Give the Soil some TLC-** Sample your soil to make sure that the pH is correct and you have sufficient levels of nutrients to begin the year. Deficiencies are harder to correct later in the year than earlier.

**#4 Make a Plan-** Study the plants that you want to grow and make sure they are hardy for your area and the growth habit fits the location for the plant. Pick plants that will provide color in the garden throughout the growing season.

**#5 Maintain It-** Don't let all of your hard work go to waste by allowing weeds to take over the space. Pre-emergent herbicides and mulch can assist in making your garden beautiful for the entire growing season.

# Minutes of the February Meeting

By Martha Edmondson

Call to order: 6:35 p.m.

## Program:

The program was to be presented by the new convention center/Embassy Suites General Manager and Sales Manager. They were unable to come.

**Minutes:** Approved as published in the Newsletter

**Treasurer's Report:** Dues are now \$15.

## Project Report:

**Plant Sale** - Jason Mullins spoke briefly about the upcoming Plant Sale Project. He explained the necessity of having nice, healthy plants so that they would sell well. He reminded everyone that the plant sale is our only fund raiser. New members must provide five plants for the sale. Seasoned members must provide ten plants. Jason emphasized that any member could bring more than the minimum number of plants.

For the children's activity at the Plant Sale, Jason needs members to save single serve k-cup pods.

**FFA/CDE** - Sharron Schelin explained volunteer duties for this project, to be held on March 6 from 8 am – 12 pm. She stated that they needed ten more volunteers. Also needed are volunteers to set up on March 5 after 3:30 pm.

Karen Massey provided members with a signup sheet for working on projects. The changes suggest that each member choose one primary project on which they could commit to providing a minimum ten hours of work. The time worked on the primary project is not limited to ten hours. Members could choose to work at any Primary or Secondary project they wanted. Members would be contacted via text and/or email about work days and times.

(A complete list of the Primary and Secondary Projects may be found in the RED notebook. The Calendar in the Red notebook notes the days and times various projects meet to work).

**RRR:** Stephanie Neely introduced the 2019 Mentors. The 2019 New Member Class will be introduced at the March meeting. Seasoned members are encouraged to greet and get to know new members.

Mentors from Left to Right: Melinda Smith, Anna Warren, Pat Finch, Susan Westbrook, Jason Mullins, Karen Massey, Karen Pearce, Martha Edmondson, Mike Wilbanks, Ditty Mitts, Vickey Mullally, Brenda Ferralasco, Mark Knuckles.

Sharron Schelin receiving her Silver Name Tag for completing 5 Advanced Training Classes.

## Old Business:

**Award:** Sharron Schelin received a special name tag for completing five Advanced Training classes.

Members were encouraged to sign up for the 2019 State Conference in Hope, Arkansas.

## New Business:

Beautiful tulips were given to members with February birthdays. The door prizes were coleus plants provided by Joe Stainton.

Next meeting: Thursday, March 7, 2019.

The meeting was adjourned at 7:09 pm.

## Guidelines for Craighead County Master Gardeners Plant Sale

ASU Regional Farmers' Market

April 27, 2019, 7:00 am - 3:00 pm

**\*Plants** - MGs are required to bring a **minimum** of 10 plants; while our new class members must bring a **minimum** of 5 plants each. **Additional plant contributions are certainly welcome.** Members are encouraged to propagate plants from their own gardens. However, they may purchase plants to resale. A four or six pack equals one plant. The public looks forward to our plant sale and we want to provide them with a good choice of **quality** plants.

In the past, we have asked MGs not to bring green liriope/monkey grass. The committee has decided that members can bring more, but only 2 will be counted toward your 10 plants. For new class members only 1 liriope/monkey grass will count toward your 5 plants.

Your plants should be labeled with the common name, botanical name, sun or shade requirements and any special care instructions. This information should be clearly written on the printed forms and attached to the plant.

The Plant Sale committee will be pricing all of the plants on Friday. So, there is no need to price them. If you have a special plant or merchandise item that you know the value of, feel free to mark that on your tag..

**A check-off sheet will be posted during the drop-off time. Make certain to sign the sheet in order to receive credit for your plant donations.**

**\*Drop-Off** - Plants should be dropped off at the Farmer's Market on Friday, April 26th, between 3:30 pm and 6:30 pm. If you are unable to drop off your plants at this time, please ask a fellow MG to bring your plants for you. **ONLY** if necessary you may drop plants off late Thursday evening or early Friday morning at the ASU Regional Farmers' Market complex. A sign in sheet will be provided. **It is recommended that you text a photo of where you left your plants to (870)974-2606.**

**\*Time** - The sale will begin Saturday, promptly at 7:00 am and continue until 3 pm. Workers should arrive at 6:45 am on Saturday morning to be in place for the opening of the sale. Master Gardeners will be allowed to purchase plants at noon at regular price. At the close of the sale a discount will be offered. **\*\*\*For fairness to all, Master Gardeners are NOT allowed to set plants aside for later purchase.**

**\*Workers** - In an effort to minimize confusion, signup will be job specific. Please review the attached job descriptions prior to signing up. All workers will have to sign in to ensure all roles are filled. Hours will be credited for those working specific roles. **\*\*\* All Master Gardeners must wear their nametag and MG shirt and/or apron the day of the sale. Workers designated as "Checkers" should bring a steno pad, pens and a handheld calculator. Workers may bring drinks and snacks. A food truck will also be available.**

**\*Other Items** - Members are encouraged to bring garden art, garden magazines or other related items to be sold in a "yard sale" type atmosphere. **Needed to use on sale day:** Wagons and Boxes

Our friend, Renee Shepherd, owner of Reneesgarden.com (Renee's Garden Seeds), is making a wonderful offer for Health, Wellness and Environmental Studies Elementary School. If you go to her website and order seed, and use this code when you order: FR556A, she will donate 25% of the price of the seed you order, to the Health, Wellness and Environmental Studies Elementary Kitchen/Garden Program. Isn't that great? So, go to her website and order some seed, being sure to use the FR556A coupon code.

Craighead County Master Gardeners are trained volunteers working with the University of Arkansas Cooperative Extension Service and Craighead County officials to provide beautification projects and horticultural information to the residents of the county. In 2018 Craighead County Master Gardeners reported more than 12,611 hours of service and education to benefit Craighead County.
