University of Arkansas System

ARKANSAS FOREST
RESOURCES CENTER

The Arkansas Timber Price Report is a quarterly report of timber stumpage prices in Arkansas. Survey data for this report are provided by [Timber Mart-South](#). The price summary is provided to illustrate current, statewide market trends in timber product values for standing timber. These values may not reflect the stumpage values for a particular tract of timber. Timber prices may vary greatly depending on many factors including: location in the state, species, products, access, distance to mills, and site conditions. To obtain a report visit www.uaex.edu and go to the Environment and Nature tab, or www.afrc.uamont.edu. You can also contact your local county Extension agent. If you have questions about the report, please contact: Dr. Kyle Cunningham at 501-671-2145 or kcunningham@uaex.edu.

3rd Quarter 2017 Stumpage Prices (\$/ton, statewide average)

Product	Price	Change
Pine Sawtimber	\$ 22.00	0 %
Oak Sawtimber	\$ 53.00	9 %
Mixed Hardwood Sawtimber	\$ 33.00	0 %
Pine Chip-n-Saw	\$ 16.00	7 %
Pine Pulpwood	\$ 6.00	0 %
Hardwood Pulpwood	\$ 10.00	-9 %

Time Series by Quarter Since 2015

Trends: Stumpage prices remained steady for most products in the 3rd quarter of 2017. Gains were experienced in both red and white oak sawlog values. A continued decline was experienced in hardwood pulpwood stumpage values. Pine pulpwood demand remained low. Housing starts continued their slow increase, up 3 percent from a year ago. The impact from the major hurricanes did not appear to affect timber prices in Arkansas.

Timber Mart-South has more detailed data available by subscription that contains products and regions not included in this report. TMS is compiled and produced at the Center for Forest Business, Warnell School of Forest Resources, University of Georgia, under contract with the Frank W. Norris Foundation, a non-profit corporation serving the forest products industry.
