

The Arkansas Timber Price Report

The Arkansas Timber Price Report is a quarterly report of timber stumpage prices in Arkansas. Survey data for this report are provided by [Timber Mart-South](#). The price summary is provided to illustrate current, statewide market trends in timber product values for standing timber. These values may not reflect the stumpage values for a particular tract of timber. Timber prices may vary greatly depending on many factors including location in the state, species, products, access, distance to mills, and site conditions. To download a report, visit <https://www.uaex.uada.edu/environment-nature/forestry/timber-price-report.aspx>. You can also contact your [local county Extension agent](#). If you have questions about the report, please contact: Dr. Kyle Cunningham at 501-671-2145 or kcunningham@uada.edu.

1st Quarter 2017 Stumpage Prices (\$/ton, statewide average)

Product	Price	Change
Pine Sawtimber	\$ 22.00	-4%
Oak Sawtimber	\$ 49.00	0%
Mixed Hardwood Sawtimber	\$ 37.00	-5%
Pine Chip-n-Saw	\$ 15.00	-6%
Pine Pulpwood	\$ 7.00	0%
Hardwood Pulpwood	\$ 11.00	-8%

Time Series by Quarter Since 2015

Trends: Overall, stumpage prices decreased for all products in the 1st quarter of 2017. Pine pulpwood demand remains low, with stumpage prices ranging from 4 to 8 dollars per ton based on distance to a mill. Hardwood pulp prices resumed a slow downward trend. The market for hardwood sawlogs remained strong and was again reflected in the stumpage prices. The downward trend in stumpage pricing for this quarter was likely associated with increased supply due to the mild, dry conditions present for most of the winter.
