

# The Arkansas Timber Price Report

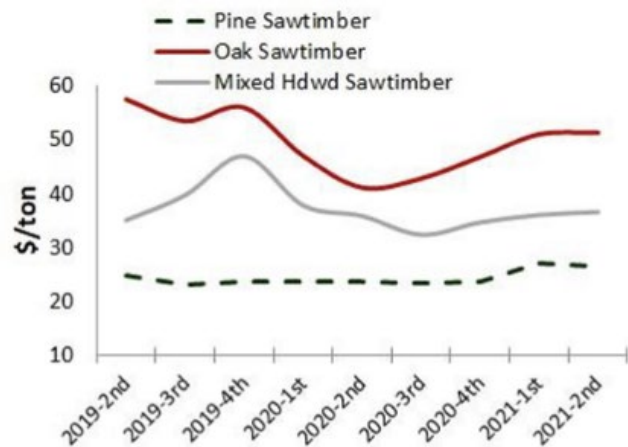

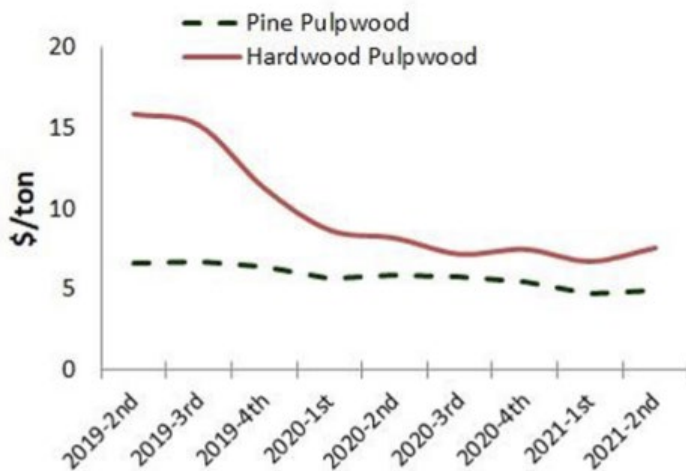

The Arkansas Timber Price Report is a quarterly report of timber stumpage prices in Arkansas. Survey data for this report are provided by [Timber Mart-South](#). The price summary is provided to illustrate current, statewide market trends in timber product values for standing timber. These values may not reflect the stumpage values for a particular tract of timber. Timber prices may vary greatly depending on many factors including location in the state, species, products, access, distance to mills, and site conditions. To download a report, visit <https://www.uaex.uada.edu/environment-nature/forestry/timber-price-report.aspx>. You can also contact your [local county Extension agent](#). If you have questions about the report, please contact: Dr. Kyle Cunningham at 501-671-2145 or [kcunningham@uada.edu](mailto:kcunningham@uada.edu).

## 2nd Quarter 2021 Stumpage Prices (\$/ton, statewide average)

Product	Price	Change
Pine Sawtimber	\$26.00	-3.7%
Oak Sawtimber	\$51.00	0%
Mixed Hardwood Sawtimber	\$37.00	+2.8%
Pine Chip-n-Saw	\$15.00	-6.3%
Pine Pulpwood	\$5.00	0%
Hardwood Pulpwood	\$8.00	+14.3%

## Time Series by Quarter Since 2019

**Trends:** Stumpage prices in the 2nd quarter of 2021 remained steady compared to first-quarter prices. Wet weather and high demand for lumber products kept pine sawtimber stumpage prices at a higher level than we have seen in several years. Demand for pine and hardwood pulpwood remained low. The lack of demand for pulpwood has impacted some landowners ability to sell their timber across the state. Quality oak sawlog demand remained strong. Experts predict pine sawlog prices will continue a slow upward trend through 2021 and in to 2022.
