

The Arkansas Timber Price Report

The Arkansas Timber Price Report is a quarterly report of timber stumpage prices in Arkansas. Survey data for this report are provided by [Timber Mart-South](#). The price summary is provided to illustrate current, statewide market trends in timber product values for standing timber. These values may not reflect the stumpage values for a particular tract of timber. Timber prices may vary greatly depending on many factors including location in the state, species, products, access, distance to mills, and site conditions. To download a report, visit <https://www.uaex.uada.edu/environment-nature/forestry/timber-price-report.aspx>. You can also contact your [local county Extension agent](#). If you have questions about the report, please contact: Dr. Kyle Cunningham at 501-671-2145 or kcunningham@uada.edu.

2nd Quarter 2019 Stumpage Prices (\$/ton, statewide average)

Product	Price	Change
Pine Sawtimber	\$25.00	4%
Oak Sawtimber	\$58.00	4%
Mixed Hardwood Sawtimber	\$35.00	-10%
Pine Chip-n-Saw	\$15.00	0%
Pine Pulpwood	\$7.00	-12.5%
Hardwood Pulpwood	\$16.00	33%

Time Series by Quarter Since 2017

Trends: Stumpage prices were variable for most products in the 2nd quarter of 2019. Strong prices remained in both red and white oak sawlogs, with AR running well above the SE average. Lingering effects from wet conditions increased demand for most products, having positive impacts on stumpage prices. This was especially true with hardwood pulpwood. Pine pulpwood experienced a downward trend in pricing. Log and lumber exports continued to decline down from previous year, something to keep an eye on with hardwood sawlog prices.

Timber Mart-South has more detailed data available by subscription that contains products and regions not included in this report. TMS is compiled and produced at the Center for Forest Business, Warnell School of Forest Resources, University of Georgia, under contract with the Frank W. Norris Foundation, a non-profit corporation serving the forest products industry.
