

The Arkansas Timber Price Report

The Arkansas Timber Price Report is a quarterly report of timber stumpage prices in Arkansas. Survey data for this report are provided by [Timber Mart-South](#). The price summary is provided to illustrate current, statewide market trends in timber product values for standing timber. These values may not reflect the stumpage values for a particular tract of timber. Timber prices may vary greatly depending on many factors including location in the state, species, products, access, distance to mills, and site conditions. To download a report, visit <https://www.uaex.uada.edu/environment-nature/forestry/timber-price-report.aspx>. You can also contact your [local county Extension agent](#). If you have questions about the report, please contact: Dr. Kyle Cunningham at 501-671-2145 or kcunningham@uada.edu.

3rd Quarter 2019 Stumpage Prices (\$/ton, statewide average)

Product	Price	Change
Pine Sawtimber	\$23.00	-8%
Oak Sawtimber	\$58.00	4%
Mixed Hardwood Sawtimber	\$40.00	14%
Pine Chip-n-Saw	\$15.00	0%
Pine Pulpwood	\$7.00	-12%
Hardwood Pulpwood	\$15.00	-6%

Time Series by Quarter Since 2017

Trends: Stumpage prices were variable for most products in the 3rd quarter of 2019. White oak log demand remained high; however, significant reductions in hardwood exports have begun to impact red oak log prices. Hot and dry conditions decreased demand for most products, having negative impacts on pine stumpage prices. A loss in pulpwood mill capacities due to closures and conversions began to impact pulpwood prices, particularly hardwood pulpwood, which may become a difficult product to move in the southwest portion of the state for the short term.

Timber Mart-South has more detailed data available by subscription that contains products and regions not included in this report. TMS is compiled and produced at the Center for Forest Business, Warnell School of Forest Resources, University of Georgia, under contract with the Frank W. Norris Foundation, a non-profit corporation serving the forest products industry.
