White River and Richland Creek Watershed Opportunity Assessment

Project FY16-500

Melissa Welch

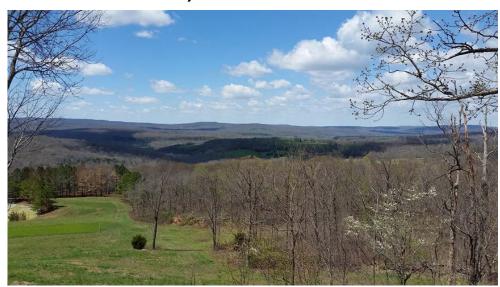

Project Overview

Project Goals/Objectives:

To raise White River and Richland Creek landowners' awareness and knowledge of the importance of riparian areas and engage them in adopting individual best management actions through public outreach, education, and demonstration programs.

- October 2016 to June 2019
- Project Costs: \$438,251 (57% Federal, 43% Match)

White River-Richland Creek Watershed

Middle Fork-White River

- 48,410 acres
- 156.5 mi of roads & 99 mi of streams
- Pasture 16%, Forest 77.5%, Urban 1%

Lake Sequoyah-White River

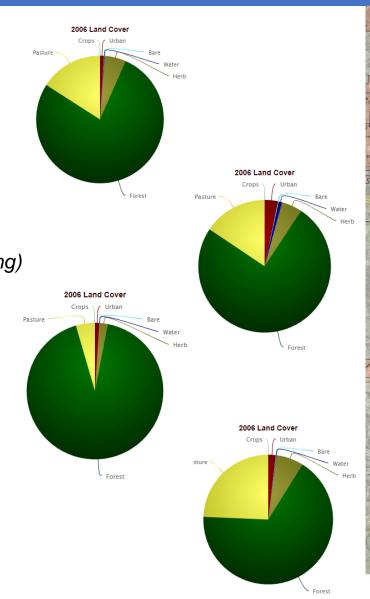

- 70,838 acres
- 206 mi of roads &143 mi of streams
- 490 acre man-made lake (recreational fishing)
- Pasture 16%, Forest 75%, Urban 3%

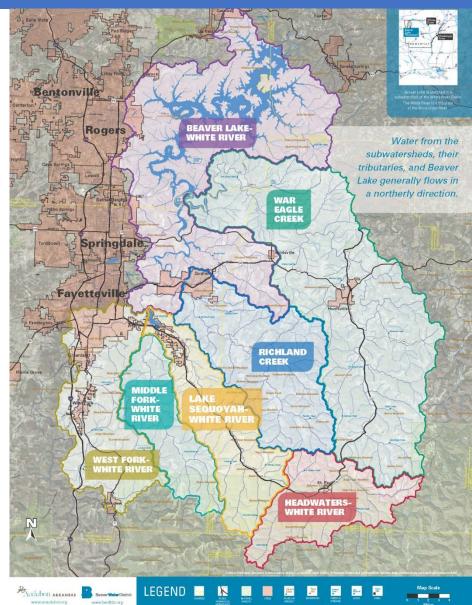

Headwaters-White River

- 58,206 acres
- 134 mi of roads & 114.75 mi of streams
- Pasture 4.3%, Forest 92.5%, Urban 1%

Richland Creek

- 93,333 acres
- 283.3 mi of roads & 189 mi of streams
- Pasture 24%, Forest 67%, Urban 2%

Our Approach

- In the beginning
 - 14 Focus Group Meetings
 - Established connections with major stakeholders in watersheds
 - 47 Attendees
- 7 bi-monthly newsletters sent to over 4,500 landowners
- 9 monthly eNews sent to landowners

Learning Process

- Watersheds have different perspectives
 - Headwaters more reserved
 - Richland Creek, Lake Sequoyah, and Middle Fork Watershed Landowners more open
 - All are excited about protecting water quality
 - Why care about Beaver Lake?
 - Don't have rural water

Building Connections

- Network of Landowners was Slow Building
 - Landowners talked to neighbors
 - Some watersheds have closed off communities
- Tree and Shrub Program
 - Interested the majority of landowners
 - 30 landowners utilized our bare-root seedling giveaway

Successful Programs

- Forest Management Workshop December 2016
 - 44 participants listened to presentations from AGFC, NRCS, and Devereux & Associates LLC
- Streamside Management Workshop March 2017
 - 50 participants listened to presentations from WCRC, U.S. Fish and Wildlife, and BWA
- Forest and Wildlife Management Demo May 2017
 - 9 participants learned about thinning and other TSI practices

Successful Programs

Five Major Cleanups

- Lake Sequoyah Cleanup
- Richland Creek Cleanup 2,920 lb
- East Fork-White River Cleanup 400 lb (20 lb)
- Middle Fork-White River Cleanup 500 lb (80)
- Headwaters of the White River Cleanup 700 lb

Supplemental Rain Garden Program

- Rain Garden Academy- April 2017
 - 17 participants learned about the rain gardens and how they improve water quality
- BWA offered rain garden-mini grants to landowners
 - 2 landowners in the White River and Richland Creek watersheds applied for funding

Community Presence

Project Numbers So Far

- 536 Participating Landowners
- 64 Site Assessments
- 136 BMPs Implemented
 - 1,005 acres Aerated
 - 7 acres of Riparian Buffer Established
 - 61 acres of Upland Habitat Reforested
- 26 Demonstration Sites Established
- Open-Space Neighborhood Collaboration

Project Numbers So Far

- 751.75 Volunteer Hours
 - About \$17,700 of \$50,000 needed
- 3 Special Interest Meetings
- 5 Stream Cleanups
- 9 Native Tree Plantings
- 7 Newsletters and 15 Mass Mailings
- 4 Rain Garden Stewardship Events

Big Issues

Erosion Estimates

Rounding the Corner

- Snowball Effect
 - More Site Visits
- Increasing the Number of Demonstration Sites
- More Programs Planned:
 - Forest Management Workshop
 - Beaver Lake Watershed Symposium
 - Streamside Management Workshop
 - 10 WROA Meetings
 - Maps being made
 - Areas not being reached?
