**Update No. 10**

<b>General</b>	<p>By Chris Elkins.</p> <p>Fields are progressing quickly. Arkansas County 1 received the most rain with 3" and Woodruff County received the least with .11" rain. Insect pressure continues to increase slowly with most fields having stinkbugs and a couple fields having very low Corn earworm numbers, still well below threshold. Frogeye continues to be the most common disease but remains below threshold for most fields. Refer to table below for field specific information.</p>		
<b>County</b>	<b>Variety</b>	<b>Stage</b>	<b>General Information</b>
Arkansas 1	NK 42T5XF	R5	Received 3.0" rain, 1.5/25 green stinkbugs, Frogeye remains light. Bacterial Blight starting to show up. Second irrigation scheduled for 7/18.
Arkansas 2	Pioneer P49Z02E	R4	Received .95" rain, Good growth, majority of field canopied, insect and disease pressure remain low. Initial irrigation scheduled for 7/12.
Clay	Pioneer P48Z70BLX	R3	Received .9" rain, 1/50 green stinkbugs, disease pressure remains low, second irrigation scheduled for 7/10.
Craighead	Asgrow AG47FX2	V7	Received .12" rain. Almost R1, excellent growth. Applied 1 qt. Liberty. + 1.25 pts s-metolachlor 6/9. Field clean, initial irrigation scheduled 7/15.
Jefferson	NK 43-W1XFS	R4	Received 1.42" rain, parts of the field will struggle to canopy, 1/50 Corn earworm, Early R4.
Mississippi	Becks 4999XF	R3	Received .1" rain. Good growth, Insect and disease pressure remain low, Initial irrigation scheduled for 7/9.
Poinsett	Pioneer P48Z70BLX	R2	Received .26" rain, Excellent growth, remains clean, 60-80% canopy. Insect and Disease pressure low. Initial irrigation 7/4.
Prairie	Pioneer P48A14E	V1	Pre-emerge Fertilizer 0-70-60, Planted 6/27. Stand Count 83K plants/acre. Applied 1 qt. Liberty plus 1 qt. Glyphosate for Grass and broadleaf Control.
White	Pioneer P46A90LX	R5	Received .74" rain. Late R5, 2.5/25 stinkbugs, disease pressure remain low, Second irrigation scheduled for 7/11.
Woodruff	Asgrow AG46XF3	R5	Received .11" rain. Mid R5. 3/25 green stinkbugs, Second irrigation 7/8. Third irrigation scheduled for 7/15.
