Update No. 17

General

Rain was scattered across the Verification fields with two fields receiving over 3". Insect pressure has dropped over the past week. Disease pressure picked up in a few fields with Jackson County requiring treatment. Six fields are now done and waiting on harvest. Refer to table below for field specific information.

County	Variety	Stage	General Information
Arkansas	Pioneer P45A40LX	R7	Done. Waiting on harvest.
Chicot	Asgrow AG46X6	R6	Done. Waiting on harvest.
Cross	Virtue 4520S	R5	Received 3.1" rain, excess rain caused increase damage on lower end, insect pressure remains low, next irrigation scheduled for 8/21.
Drew	Asgrow AG46X0	R6	Received 1.6", remains clean, rain should be enough to terminate irrigation.
Greene	Innvictis B4841E	R5	Received .85", slight lodging, third irrigation scheduled for 8/21.
Jackson	Pioneer P48A14E	R5	Received .15" rain, aerial web blight scattered across field, recommended 13.7 oz Miravis top. Next irrigation scheduled for 8/20.
Jefferson	Pioneer P46A36X	R6	Done. Waiting on harvest.
