

2022 Soybean Research Verification Program Weekly Update No. 17 September 16, 2022

Division of Agriculture, University of Arkansas System, Cooperative Extension Service
By: Chad Norton and Chris Elkins, Verification Coordinators – Soybean and Wheat

General Information

Rainfall was scattered across the state with several fields missing the rain and Ashley receiving the most with 2.2". Insect pressure continues to remain low. Fields are quickly finishing up and most fields are now waiting on harvest. This will be the final weekly update until yields are collected. Refer to the table below for field-specific information.

County	Variety	Stage	Field Notes
Arkansas	Pioneer P48A60X	R7	Received 1" rain. 1 pt. gramoxone + 1% NIS applied 9-10. Done. Waiting on harvest.
