

Arkansas Rice Research Verification Program Weekly Update

April 17, 2026 – Update No. 3

Division of Agriculture, University of Arkansas System, Cooperative Extension Service

By: Ralph Mazzanti, Verification Coordinator – Rice

General Information

Eight Rice Research Verification fields have been planted. Prairie County is the only field that has not been planted. The Desha County (FIR) field was flushed and has now emerged. Stand counts have been taken at Chicot, Desha and Jefferson Counties. The lack of moisture in some fields continues to hinder rice emergence. Residuals are running out waiting for herbicide activation.
