

2022 Soybean Research Verification Program Weekly Update No. 6 July 1, 2022

Division of Agriculture, University of Arkansas System, Cooperative Extension Service
By: Chad Norton and Chris Elkins, Verification Coordinators – Soybean and Wheat

General Information

Rainfall was limited this week with 10 fields receiving no rain and Monroe receiving 3.15” of rain. Irrigation is in full swing and fields continue to receive herbicide applications. Disease and insect pressure remain low. Refer to the table below for field-specific information.

County	Variety	Stage	Field Notes
Arkansas	Pioneer P48A60X	R2	Second irrigation should be soon. Looking great.
Ashley			Info next week.
Chicot	Asgrow AG46X6	R2	Received 1” rain. Second irrigation should be soon. Coming along.
Conway	Local Seed ZS4694ES3	R1	No Rain, Second irrigation scheduled for 6/29. Insect and disease pressure remain low.
Crittenden	Pioneer P47A64X	VE	Received 1” rain. Looks like the rain will germinate the skips, stand counts next week, Applied 12.8oz Engenia + 1.25pts s-metolachlor.
Desha	Asgrow AG48XF2	R2	Received .8” rain. Second irrigation 6-30. Looks great.
Drew	Armor 46D-09	R2	Received .75” rain. Second irrigation 6-30. Another great looking field.
Greene	NK-H3XFS	R1	No Rain, Good growth, applied 1 qt. Liberty + 1 qt. glyphosate, good weed control. Initial irrigation scheduled for 6/30.
Independence	NK S46E3S	R2	No Rain, Dryland, Slow growth, small sandy areas died, Larger areas stressed, needs rain.
Lawrence	Becks 4443XF	V2	No Rain, Almost V3, Initial irrigation scheduled for 7/2, recommended 1 qt. glyphosate for grass control.
Lee	Mission 4690XF	R2	Received .65” rain. Very big growth over past week. Looks good.
Lonoke	Asgrow AG46X6	R2	Initial irrigation 6-29. Good growth over the past week. Should take off now.
Mississippi	Becks 5005XF	V6	Received 1.05” rain, Excellent growth, starting to see a few blooms. Applied 22 oz. Xtendimax, Applied separate application 1 qt. Glyphosate. Initial irrigation scheduled for 7/6.
Monroe	Progeny 4604XF	R2	Received 3.15” rain. Very close to lapping middles. Another week of big growth. Looks good.
Poinsett	Becks 4885XF	R2	No rain. Early R2. Excellent growth remains clean. Irrigation scheduled for 7/1.

St. Francis	Dyna-Gro 48XT56	R1	No rain. Good growth, recommended 1qt. Glyphosate, initial irrigation 6/27.
White	NK42T5XF	R2	No rain. Good growth, initial irrigation 6/27, having trouble watering to the bottom, insect and disease pressure remain low.
Woodruff	Armor 47E03	V1	No rain. 133K plants per acre, excellent stand, grasses starting to emerge, will re-evaluate next week. Unable to get pre-emerge activated.
