

## 2022 Soybean Research Verification Program Weekly Update No. 7 July 8, 2022

Division of Agriculture, University of Arkansas System, Cooperative Extension Service  
By: Chad Norton and Chris Elkins, Verification Coordinators – Soybean and Wheat

### General Information

Rainfall was non-existent for northern fields, however a few fields in the south received some very good rain. 3.5" in Drew was the highest recorded. Irrigation continues for many fields. Insects and diseases have for now been a no-show. We expect that to change for some of our later planted fields as corn earworms start moving out of corn. Refer to the table below for field-specific information.

County	Variety	Stage	Field Notes
Arkansas	Pioneer P48A60X	R3	Second irrigation 7-3. Insect and disease free. Looks great.
Ashley	Asgrow AG43X0	R5	Received 2.5" rain. Insect and disease free. Looks good.
Chicot	Asgrow AG46X6	R3	Received 1.5" rain. Insect and disease free. Looking better each week.
Conway	Local Seed ZS4694ES3	R2	No Rain, Second irrigation 6/29. Third irrigation scheduled for 7/5. Will canopy next week. Insect and disease pressure remain low.
Crittenden	Pioneer P47A64X	V1	No rain. Stand count 88K plants per acre, Growth stage range from VC-V3, Good moisture.
Desha	Asgrow AG48XF2	R4	Received .7" rain. Insect and disease free. Looks great.
Drew	Armor 46D-09	R4	Received 3.5" rain. Insect and disease free. Looks great.
Greene	NK-H3XFS	R2	No Rain, Good growth, Initial irrigation 7/2. Disease and insect pressure remains low.
Independence	NK S46E3S	R2	No Rain, Dryland, setting a few pods, drought stress and plant death increasing, needs rain soon.
Lawrence	Becks 4443XF	V4	No Rain, Initial irrigation 7/1, Irrigation stunted beans slightly, 6/29 applied 1 qt. glyphosate for grass control.
Lee	Mission 4690XF	R3	Second irrigation 7-3. Insect and disease free. Looking very good.
Lonoke	Asgrow AG46X6	R3	Initial irrigation 6-29. Stink bugs and bollworms running 1/25 sweeps. Disease free. Coming along.
Mississippi	Becks 5005XF	R2	No rain, Rapid growth, early R2. Remains clean. Initial irrigation 7/5.
Monroe	Progeny 4604XF	R3	Received .25" rain. Middles lapped. Second irrigation 7-5. Coming along.
Poinsett	Becks 4885XF	R2	No rain. Excellent growth, looks really good. Irrigated 7/1. Disease and insect pressure remains low.

St. Francis	Dyna-Gro 48XT56	R2	No rain. Excellent growth, recommended 1qt. Glyphosate, disease and insect pressure remains low.
White	NK42T5XF	R2	No rain. Good growth, insect and disease pressure remain low.
Woodruff	Armor 47E03	V3	No rain. Good growth, Grass and broadleaf pressure increased, recommended 1 qt. glyphosate plus 2 pts Enlist one.
