

2022 Soybean Research Verification Program Weekly Update No. 15 September 2, 2022

Division of Agriculture, University of Arkansas System, Cooperative Extension Service
By: Chad Norton and Chris Elkins, Verification Coordinators – Soybean and Wheat

General Information

Rainfall tended to favor northern fields over the past week with several southern fields receiving none to very little while Lawrence got the most at 1.5". Most southern fields have had irrigation terminated and are waiting for harvest. Insects continue to build in later planted fields as another was treated for loopers this past week. Refer to the table below for field-specific information.

County	Variety	Stage	Field Notes
Arkansas	Pioneer P48A60X	R6	Received .04" rain. Fourth and final irrigation applied 8-27. Stink bugs still running 4/25 sweeps. Disease free. Looks great.
Ashley	Asgrow AG43X0	R7	Received 1" rain. Done. Waiting on harvest.
Chicot	Asgrow AG46X6	R6	Really moving fast, now R6.5. Will hold off on irrigation with forecast over next few days. Clean.
Conway	Local Seed ZS4694ES3	R6	Received .1" rain, Early R6, Disease and insect pressure remain low, Irrigated scheduled for 8/29.
Crittenden	Pioneer P47A64X	R5	No rain, good pod set, Disease and insect pressure remain low, Second Irrigation scheduled for 8/31.
Desha	Asgrow AG48XF2	R6	Done. Waiting on harvest.
Drew	Armor 46D-09	R6	Done. Waiting on harvest.
Greene	NK48-H3XFS	R6	Received 1.25" rain, Early R6, disease and insect pressure remains low, Partial Irrigation 8/29, Shut off after rain.
Independence	NK S46E3S	R6	Received .73" rain. Dryland, 6/25 green stinkbugs, still has good moisture, one more timely rain will finish us up.
Lawrence	Becks 4443XF	R5	Received 1.5" rain, Disease pressure low, Corn earworms 1/25, Irrigated 8/29.
Lee	Mission 4690XF	R6	Received .45" rain. Seventh irrigation applied 8-29, should finish it off. Looking very good.
Lonoke	Asgrow AG46X6	R6	Fourth irrigation applied 8-28. Moving quickly. Stink bugs running 2/25 sweeps. Disease free. Coming along.
Mississippi	Becks 5005XF	R6	Received .15" rain, Early R6, Soybean loopers starting to pick up 10% defoliation, irrigation 8/28.
Monroe	Progeny 4604XF	R6	Received .7" rain. Fifth irrigation and final irrigation applied 8-29. Stink bugs running 5/25 sweeps. Disease free.

Poinsett	Becks 4885XF	R6	Received .37" rain, Progressing quickly, 3/25 Stinkbugs, irrigated 8/30.
St. Francis	Dyna-Gro 48XT56	R6	Received .55" rain, Early R6, 2.25/25 Stinkbugs. Fifth irrigation 9/2.
White	NK42T5XF	R6	Received .24" rain, Early R6, Soybean Looper pressure quickly increased and reached threshold, Recommended 5oz Intrepid Edge, sixth Irrigation 8/28.
Woodruff	Armor 47E03	R5	No rain, Early R5, Good pod set, Insect and disease pressure remains low. Third irrigation scheduled for 8/30.
