ROW CROP VERIFICATION

**2019-2020 Wheat Research
Verification Program November
Update**

February 28, 2020

Update No. 4

General	By Chad Norton and Chris Elkins. Wheat fields are starting to see good growth and conditions have been favorable for initial fertilizer applications. Weed pressure is starting to pick up but remains a field by field case. Insect and disease pressure remain low. We expect to see excellent growth in the coming weeks.		
County	Variety	Feekes Stage	General Information
Ashley	AGRIMAXX 473	3	Recommended 140 lbs urea + 50 lbs ammonium sulfate for initial fertility application. Will be applied as soon as conditions allow.
Lawrence	Dixie Brown	3	Growth starting to pick up. Applied 50lbs ammonium sulfate + 50lbs Urea by air. Will apply 100lbs Urea next week.
