Update No. 6

General	By Chad Norton and Chris Elkins. Rains continue to be the main challenge this growing season. Fields have experience prolonged excess moisture and water damage ranges from moderate to severe. Fertilizer applications have been delayed but final applications will be going out soon. Despite the weather disease pressure has remained relatively low.		
County	Variety	Feekes Stage	General Information
Ashley	AGRIMAXX 473	10	Growing quickly, Severe water damage in areas of the field. Applied 100 lbs/ac Urea on 3/18
Lawrence	Dixie Brown	6	Growth starting to pick up. Will apply final N application ASAP. Applied 2 oz/ac Powerflex HL on 3/6 for ryegrass control.
