

Arkansas
ROW CROP VERIFICATION

**2020-21 Wheat Research
Verification Program Fall
Update**

March 25, 2021

Update No. 5

General			
By Chad Norton and Chris Elkins.			
County	Variety	Feekes Stage	General Information
Arkansas	Pioneer P26R41	5	Temperatures continue to increase and fields are starting to see rapid growth. Rains continue to make applying spring nitrogen and herbicide difficult. Overall, fields continue to look good and insect and disease pressure remain low. Refer to table below for field specific information.
Ashley	AGS 2055	9	Still having some issues with deer. Second N application of 100# urea should be any day now.
Chicot	AGS 2055	9	Flag leaf beginning to show. Didn't seem to get as much height as it should. Great color.
Chicot	Pioneer P26R45	5	Second N application of 100# urea should go out soon. Starting to take off.
Clay	Dixie Bentley	5	Excellent growth, will be feekes 6 next week, recommended .9oz Harmony Extra for weed control.
Jefferson	Local Seed LW 2848	7	Grown a ton over the past week. Looks good.
Lawrence	Delta Grow 1000	5	Excellent growth, will be feekes 6 next week, final 45 units N applied 3/22 in the form of liquid 28%.
Lee	Local Seed LW 2848	6	Second N application should be soon.
