

Arkansas
ROW CROP VERIFICATION

**2019-2020 Wheat Research
Verification Program November
Update**

March 6, 2020

Update No. 5

General	By Chad Norton and Chris Elkins. Wheat fields are starting to green up and hopefully are past the roughest part of winter. Slightly drier condition have allowed for fertilizer application to be applied. Weed pressure has been picking up and both verification fields will be treated with a herbicide. Disease and insect pressure remain low.		
County	Variety	Feekes Stage	General Information
Ashley	AGRIMAXX 473	6	Good growth, Applied 2 oz/ac Powerflex HL on 2/15 for weed control and on 2/28 applied 50lbs/ac ammonium sulfate + 140 lbs/ac Urea.
Lawrence	Dixie Brown	4	Growth remains slow, Applied 100 lbs/ac Urea by air on 2/29, Recommended 2 oz/ac Powerflex HL for ryegrass control.
