

**April 23, 2021**

**Update No. 8**

<b>General</b>	By Chad Norton and Chris Elkins. Temperatures expected to quickly increase next week and we should have excellent growing conditions. This week's cold temperatures are not expected to have caused much if any damage but we will continue to look for symptoms of frost damage in the upcoming weeks. Disease and insect pressure remains low.		
<b>County</b>	<b>Variety</b>	<b>Feekes Stage</b>	<b>General Information</b>
Arkansas	Pioneer P26R41	10.5.2	Flowering this week. Looks ok.
