

Arkansas  
**ROW CROP VERIFICATION**

**2019-2020 Wheat Research  
Verification Program November  
Update**

**April 3, 2020**

**Update No. 7**

<b>General</b>	By Chad Norton and Chris Elkins. Fields are starting to progress quickly and range from flag leaf starting to emerge to beginning of heading. All nitrogen applications have been applied. To date water damage has had the biggest impact on limiting yield with severe water damage in areas. Disease and insect pressure remain low.		
<b>County</b>	<b>Variety</b>	<b>Feekes Stage</b>	<b>General Information</b>
Ashley	AGRIMAXX 473	10.1	Severe water damage in areas of the field. Spikes just beginning to emerge.
Lawrence	Dixie Brown	8	Starting to see rapid growth, Very light disease pressure. Final N application of 100lbs urea was applied 3/27/20
