ROW CROP VERIFICATION

**2020-21 Wheat Research
Verification Program Fall
Update**

April 30, 2021

Update No. 9

General	By Chad Norton and Chris Elkins. Temperatures are quickly picking back up and several rain events are expected in the upcoming week. Hopefully, we can miss the rain with most of the fields in the flowering stage. Disease and insect pressure remains low.		
County	Variety	Feekes Stage	General Information
Arkansas	Pioneer P26R41	10.5.3	Still flowering.
Ashley	AGS 2055	11.2	Looks very good. Some Stripe Rust showed up this week.
Chicot	Pioneer P26R45	10.5.3	Still flowering. Looks good.
Clay	Dixie Bentley	10.5.1	Starting to flower. Disease pressure remains low and will not need treatment.
Jefferson	Local Seed LW 2848	10.5.2	Prosaro applied 4-26. Looks good.
Lawrence		10.5.1	Starting to flower. Disease pressure remains low and will not need treatment.
Lee	Local Seed LW 2848	10.5.3	Still flowering. Looks good.
