

Arkansas  
**ROW CROP VERIFICATION**

**2018-19 Wheat Research  
Verification Program Update**

**May 3, 2019**

**Update No. 10**

<b>General</b>	By Chad Norton and Chris Elkins. Wheat fields are moving quickly and starting to fill grain. Rainy weather with high humidity was common during flowering and we could see scab (FHB) in the upcoming weeks. Septoria has also taken advantage of the weather and quickly progressed. Insect pressure has remain low.		
<b>County</b>	<b>Variety</b>	<b>Feekes Stage</b>	<b>General Information</b>
Ashley	Pioneer 26R41	11.1	Very few armyworms low on plant. Moving along. Septoria getting pretty bad in very small area plane couldn't apply fungicide.
Greene	Pioneer 26R41	10.5.3	Continues to progress quickly, Septoria progressed quickly given the variety. Insect pressure remains low.
