

Arkansas  
**ROW CROP VERIFICATION**

**2019-2020 Wheat Research  
Verification Program November  
Update**

**May 8, 2020**

**Update No. 10**

<b>General</b>	By Chad Norton and Chris Elkins. Cooler temperatures and rain continue to slow the progress of wheat fields in Arkansas. Disease pressure remains low and all WRVP fields are past the need for treatment. We are continuing to monitor for Armyworm pressure currently only low numbers are being found in WRVP and surrounding fields.		
<b>County</b>	<b>Variety</b>	<b>Feekes Stage</b>	<b>General Information</b>
Ashley	AGRIMAXX 473	11.2	Finishing up quickly, no Armyworm pressure, should be at hard kernel soon.
Lawrence	Dixie Brown	10.5.3	Flowering almost finished, slight disease pressure will not need treatment, no Armyworm pressure.
