

Arkansas Rice Research Verification Program Weekly Update

April 11, 2024 – Update No. 1

Division of Agriculture, University of Arkansas System, Cooperative Extension Service

By: Ralph Mazzanti, Verification Coordinator – Rice

General Information

Several Rice Research Verification Program (RRVP) fields were planted prior to the rain. Five of nine fields drill-seeded include: Cross, Jefferson, Lonoke, White and Woodruff Counties. None of the furrow irrigated rice (FIR) fields which include Chicot, Drew and Mississippi have been planted. Pre-emergence herbicides were applied to all fields planted except Cross County. The rain moved in before the field could be sprayed. Pre-plant fertilizer applications were made according to soil samples. Rainfall amounts ranged from 1” in Cross County to 3.4” in Jefferson County to 7” in Chicot County.

Refer to the table below for field-specific information:
