User's Guide for Field Capacity Calculator

For questions and comments related to the University of Arkansas Crop Enterprise Budget Program contact Breana Watkins at 870-933-4565 or bjwatkins@uaex.edu.

Entering Data

This calculator can be applied to determine the number of hours required to work a specified number of acres or the acreage that can be worked with a specified number of hours available.

In either the "Hours" or "Acres" worksheet enter the equipment width, ground speed, and number of times through the field.

To determine the number of hours required to work a specified acreage, go to the "Hours" worksheet. Enter the acreage in column E, and the result in column F is the time required.

To determine the acreage you can work with a specified number of hours available, go to the "Acres" worksheet. Enter the hours available in column E, and the result in column F is acreage that can be worked.

University of Arkansas, United States Department of Agriculture and County Governments Cooperating.

The Arkansas Cooperative Extension Service offers its programs to all eligible persons regardless of race, color, national origin, religion, gender, age, disability, marital or veteran status, or any other legally protected status, and is an Affirmative Action/Equal Opportunity Employer.
