

Animal Science Internship

Description:

This paid ~12-week summer internship (400 hours) will allow a college student to get involved in extension programming at the State Extension Office in Little Rock, AR. The intern will work closely with the animal science faculty in implementation of research-based educational programs and 4-H youth development experiences. Inexpensive housing is available.

Qualifications:

- Completed sophomore year of college by Summer 2026
- Strong oral & written communication skills
- Good organization and planning skills
- Livestock background preferred

How to Apply:

Send resume, cover letter, and list of three references to Allison Harman at aharman@uada.edu.

Application
Deadline: **January 30, 2026**
