

Cheerio Bird Feeders

EASY AND "CHEEP" :D

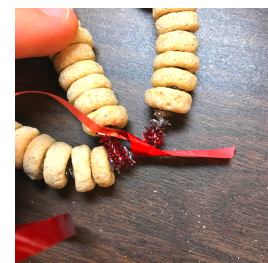

Materials:

- Pipe cleaners
- Cheerios
- Raffia, yarn, ribbon, or string

Directions:

- Start by bending the end of a pipe cleaner so the cheerios don't fall off.
- Thread cheerios onto 3 pipe cleaners, leaving a bit of space at each end.
- Take 2 pipe cleaners and twist the ends together to form a circle.
- Take your 3rd pipe cleaner and lay it across the circle. Twist those ends around the gaps in the circle where your first two pipe cleaners were joined. The 3rd pipe cleaner will serve as a perch for small birds to sit on.
- Tie string to the pipe cleaners so you can hang it from a branch.
- Get creative! Make any shape bird feeder you want!
