

IF YOU GIVE A MOUSE A COOKIE - MATCHING ACTIVITY

Items needed:

Brown construction paper
Black markers
Scissors

Cut out 20 circles about the size of a cookie
Divide the circles into 2
On one set of circle, write the numbers 0-9,
one number per circle

On the other circles, draw “chocolate chips” onto
the cookies, so that each number cookie has a
cookie with that many chocolate chips.
Allow the children to count the chocolate chips
on each cookie and find the cookie with the
matching number on it.
