

PRINTABLE PAPER FANS

FROM REDTEDART.COM

STEP 1

[Click here](#) to print your free template from redtedart.com. Or cut your own strip from your favorite colored paper and decorate yourself!

STEP 2

Cut out the extra white parts from both sides of the 2 flag patterns without the 24 spoke wheel, just like the picture above.

Then glue all three pieces together into one long strip.

STEP 3

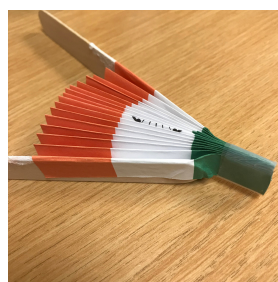

Start to create small and even accordion folds on the glued patterns. Create the folds along the width.

Continue to create the folds until you've reached the other end.

STEP 4

Take the accordion folded paper and squeeze the green side to gather all the folds together. Take a small piece of clear tape and wrap it tightly around the gathered folds to keep the joint secured.

STEP 5

Take any one of the popsicle sticks and apply glue on both sides of the stick. Do not apply glue on the entire stick, only along half of its length. Place the glued popsicle stick inside the folds on the end.

STEP 6

Allow the glue to dry entirely. Give it a few minutes. Then bring the 2 popsicle sticks adjacent and join them. Use glue or clear tape to join the sticks together.

And done!
