

# SNOWMAN PAPER PLATE MASK

Supplies needed:

- Black cardstock
- Red cardstock
- Paper plate (with cut out middle)
- Scissors
- Glue/Hot glue
- Popsicle stick

- Glue a craft stick to the bottom of the paper plate. (I used glue & tape, another suggestion would be to use hot glue).

- Cut the hat out of the paper. Kids can either trace and cut a hat template or you can prepare this ahead of time

- depending on age.

- Have kids decorate the hats. Once the hats are decorated, fix the hat to the top of the paper plate using white glue or hot glue. Kids should not handle hot glue.

- How cute is this!
