

THE VERY HUNGRY CATERPILLAR

1

Items needed:

- Red, Green, and Yellow construction paper
- Pipe cleaner
- Scissors
- Glue or tape

2

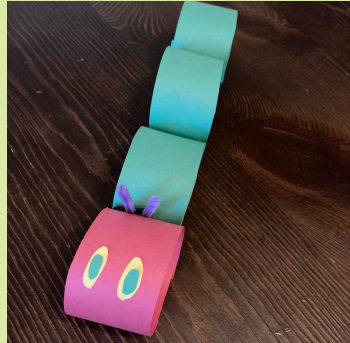

Cut about two inches off the pipe cleaner and bend into a V. Then three green and one red paper strip (like you are making a paper chain) about 3 inches wide. Finally, small yellow ovals and slightly smaller green ovals to make the eyes.

3

Glue the strips into circles. After that, glue the small green ovals inside of the yellow ovals (this will create the eyes), then glue eyes to the red circle.

4

On the opposite side of the red circle, add glue to attach pipe cleaner and the first green circle. Glue the green circles in row behind the red circle.

Enjoy your Very Hungry Caterpillar!
