COFFEE FILTER CRAFT FOR PRESCHOOLERS

TRY TODAY

A FUN SPRING CRAFT

Supplies

- Coffee filters
- Water colors or food coloring
- Pipettes
- Googly eyes
- String
- Craft sticks
- 3 Cups

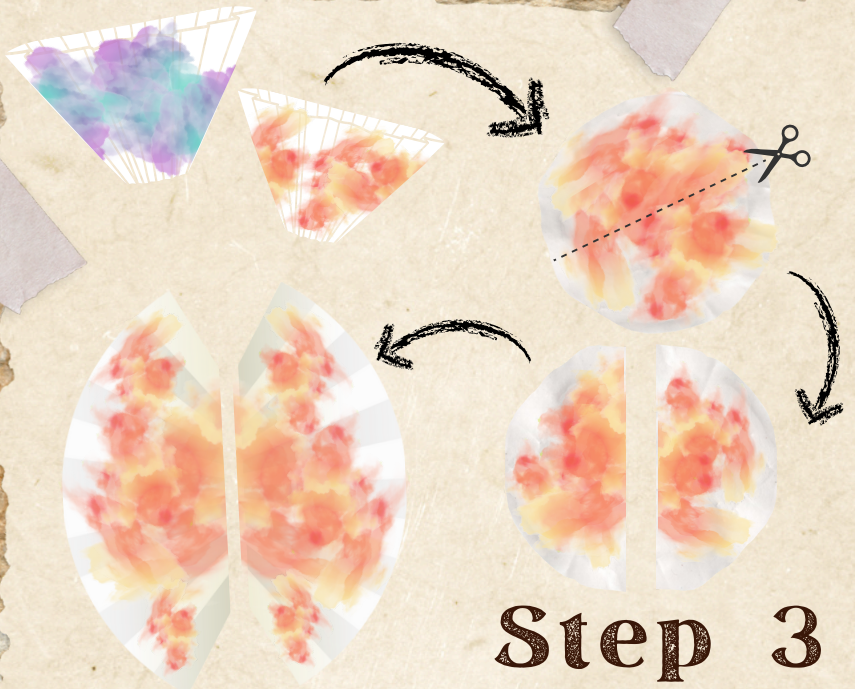

Step 1

Explore your favorite colors, drop a few drops in 3 different glass cups. Then with the pipette, drip drop the colors onto the coffee filters. Watch them as they change their colors!

Step 2

Once the filters are dry, cut them in half. Then switch two halves around so the circle sides meet. This will create the wing effect. Next scrunch the filters in the middle and prepare your craft sticks to be glued

Step 3

Place the craft stick on top of your wings. Add a bit of glue to the craft stick and add some googly eyes. Finally, add a string to make an antennae of your coffee filter butterfly
