

# OCEAN IN A BOTTLE

## MATERIALS

- A clear plastic bottle
- Water
- Food coloring
- Baby oil
- Glue / tape

## DIRECTIONS

1. Fill the bottle half way with water.
2. Add several drops of food coloring. (You can add other ocean plastic pieces here too if you want something in the "water.")
3. Shake the bottle to disperse the food coloring evenly.
4. Fill up the rest of the bottle with oil.
5. Glue the lid shut or tape it securely so it will not open.
6. Tilt it back and forth slowly to make "waves."
