

Sticky Spider Web!

Ages 2+

From LearnAsYouPlay.net

Materials needed:

- Duct tape
- Hula Hoop
- Plastic spiders

Directions:

- Take the duct tape and wrap it around the hula hoop. You want the sticky side of the tape to be all on one side (so the plastic spiders will stick).
- After that, let the children stick & pull the spiders on and off of the 'spider web'.

Good for gross motor skills when the children throw the spiders on to the web. Also great for fine motor skills when they are pulling the spiders off of the 'web'.
