AIMS Data Entry for the EFNEP Program

Go to AIMS, either through the “Employees Only” page or aims.uaex.edu, and log in using your Active Directory password.

Once logged in, go to the “my Reporting” page by clicking on the “my Reporting” button (Step 1 below).

On the “my Reporting” page, if you are wanting to only report time, you can enter in your Program Planning & Delivery Time here.

If you are reporting contacts, volunteer information, and/or time, you will click the “Report” button for either the EFNEP Adults Objective or the EFNEP Youth Objective (Step 2 below).

Direct Contacts

Direct Contacts are those you deliver educational programming to and you can confirm they heard/saw/read the information you are delivering. Classes, one-on-one consultations, and staffed displays are all considered direct contacts.

When selecting your Civil Rights audience, remember programming meant for youth will go into “4-H & Youth” and programming meant for adults will go into “Family & Consumer Science.”

As you enter in your contacts, remember “Total Contacts” in the methods section should equal the total of all the race categories (see arrows below). e.g. If you have 1 Asian, 10 African Americans, 2 White and 1 Two or More Races, you should have 14 Total Contacts listed above.

For your Hispanic/Latino contacts, unless they select a separate racial category, include them in your “two or more races” category.

For youth audiences, report your contacts by age categories. If contacts are not reported by age, they will be counted as adults in your data.

Your total contacts number MUST equal the total race number.

Direct Contacts (Continued)

Phone calls, emails, mail information, and website contacts are considered direct contacts, but do not require demographic information. Just enter in the number of people you have contacted using those methods.

InDirect Contacts

InDirect Contacts are those you deliver educational programming to and you CANNOT confirm they heard/saw/read the information you are delivering. Newsletters, stand-alone handouts, and un-manned displays are examples of indirect contacts.

For newsletters and educational resources, you need to enter in the total number of contacts reached through those means, plus how many times you did that (e.g. 1 newsletter to 200 adults).

For methods that you cannot be sure of how many people heard your educational programming, like displays and newspaper articles, you only report how many times you did that (e.g. 2 displays set up this month, 1 newspaper article written and submitted for publishing).

Volunteers

Volunteers are any people who assist you (unpaid) in delivering your programs. Examples are teachers who pass out your handouts, a person who helps you assemble packets before a program, or someone who serves on your advisory committee.

Select the “Volunteer Audience” that best describes who the volunteers are. If there is not a category that fits, you can select “Other” and describe them in the text box on the right.

Place the information under the type of service they performed:

- Direct Service- Those who had direct contact with your audience- e.g. Teacher who distributed your handouts during a lesson.
- InDirect Service- Those who did NOT have direct contact with your audience- e.g. Person who helped you assemble packets before a program.
- Service Learning- Those who are being trained to serve your audience- e.g. People attending a volunteer training to learn how to deliver EFNEP program content.
- Boards/Commissions/Advisory Councils- Those who are advising the direction of your program- e.g. People serving on your advisory committee.

Enter in the number of volunteers that assisted you and the TOTAL number of hours they all served. For example, if you have 5 volunteers who helped you for 2 hours each, you enter “5” under “Total # of Volunteers” and “10” under “Total # Volunteer Hours.”
